

The Eager Elephants' Newsletter

W.B: 9/10/17

Our Learning

This week in English, the children have been researching different countries and the foods they eat there. They have written an information text all about the foods of their chosen country.

In Maths, we have been using cms and mms to measure and compare objects, and even learnt to convert between cms and mms.

In our topic work we have been learning about Florence Nightingale and Mary Seacole, and their influences within the world of health and nursing. We also sketched still life drawings using our handmade salt dough fruit and vegetables.
