

KS1 Weekly Update

Maths Focus:

This week we have been using number bonds to 10 to add two 1 digit numbers (e.g. $5 + 6 = 11$ is $5 + 5 = 10$ and then $10 + 1 = 11$). If you could help your child learn their number bonds so that they can recall them quickly, it would really help.

English Focus:

This week we are writing a weather report. The children have described the weather by looking at weather symbols. They will have time to perform their own weather report in the class TV.

Spelling focus: This week we are continuing to practise our tricky words. Your child recently brought home a bookmark with the words that they are focusing on.

Additional information:

Please could you remind your child to take out/off jewellery on P.E days.
